

Monday 7th June 2021

Information for Cambridge National Sport Science Assessment

Unit number RO41 - Reducing the Risk of Sports Injuries.

Dear Parent/Carer,

As you are aware your son/daughter has been studying the OCR Cambridge National in Sport Science for almost 2 years now at The Emmbrook School. This month is incredibly important as it sees them take part in their first formal assessment for their current Unit RO41 – Reducing the Risk of Sports Injuries.

This assessment is very important because their result will be counted towards their final GCSE grade of Fail, Pass, Merit or Distinction. The students will have another chance to repeat the assessment in year 11. However, if they continue to revise and work hard in lessons then we believe they can excel beyond their target grades and may not need to re-sit the assessment in year 11 which will relieve both stress and tension in their final year.

They have already started revising for this assessment with myself and Mr Tichband using a revision guide that we have provided them with which is also available for them on Teams.

The assessment is 60 minutes long and worth 60 marks and will be sat during their assessment week that starts on Monday 28th June (the exact day is yet to be confirmed).

If you have any questions or queries about this then please don't hesitate to contact me via email – chumber@emmbrook.wokingham.sch.uk

Yours sincerely

Craig Humber
Curriculum Leader for PE
