

Monday 27th June 2022

Dear Parent/Carer,

Learning habits

We are looking to adopt **life-long learning habits** across the school community for September 2022, these will aid our current core values and support our students not only in their learning but also for the rest of their lives. These learning habits would aim to give our students the tools to fulfil their potential by supporting them in making positive learning choices without even thinking, day in and day out.

An example of a potential learning habit could be *being fully equipped* - trying to embed the need to come to school, and wherever else they may go, fully equipped to aid success. This applies to school day to day, but it could be for a club outside of school, or an interview, workplace etc. This is a habit that will support them throughout their lives. *Correct uniform* could be another, as it supports our core value of family and also enables students to adopt the right mindset to learn and make positive choices, this again works for school and the world of work.

We feel it is important that we get feedback from all stakeholders: staff, students and parents before making the final decisions on these learning habits ahead of their full launch in September. These learning habits may be tweaked, changed and added to in the future, but it is key that we get some consensus across all stakeholders as everyone will have a part to play in these having a positive impact. The learning habits are not a revolutionary change, but our aim is to raise the profile of these key habits, so that students instinctively display them.

Please could you complete the survey below to share your feedback on potential learning habits that you feel will have a long-term benefit for our students, it will take no more than two minutes to complete. I will collate the results on **Friday 1st July** so hopefully that will give you all enough time to complete the survey.

When you click the survey below, please select any of the suggested learning habits that you feel will have a significant impact. Please feel free to select one or more. There is then a box which allows you to suggest anything else that you feel would be an important learning habit for our students. It is important that learning habits are short, clear and simple to ensure all students can understand them and be able to act on them daily.
